

Focus on the

FUELMASTER™

The **FUELMASTER** by M. Carder, provides the high flow capacity required for efficient refueling by many truck stops and terminal operations. This Diesel nozzle features a lightweight, yet rugged casting; Micro-touch valve for smooth operation and exceptional flow control; super tough nylon handguard and hold open clip - with the super strength nylon, they will bounce, but won't break; plus easy to change "locknut style" spout assembly. All Fuelmasters are performance tested for quality assurance. Made in U.S.A.
